INDUSTRY FOR APPLICANTS' INVENTION / COMMERCIAL SUCCESS OF  
THE SAME**

I, James Radcliff, of full age and majority, residing at 1333 Dean Turner Ext, Leaksville,  
MS 39451, do hereby declare as follows:

1. I am the owner of P&J Oxyfill, LLC (P&J).
2. In 2005, my company entered into a licensing agreement with C& M Oxyfill, LLC to utilize their mobile transfilling method. (See Exhibit 1 - copy of Licensing Agreement)
3. My company has been servicing medical supply equipment companies in regions in Mississippi for the past four and a half years, utilizing the applicants' mobile transfilling method.

## ATTACHMENT 4

4. When my company first started operations, we had no clients and there were a plurality of conventional ground-based re-filling stations doing business in my region.
5. My company subsequently developed a significant client following.
6. Many of my company's current clients had formerly utilized these conventional ground-based re-filling stations but subsequently switched to my company's services.
7. My company did not have any pre-existing relationship with our current clients.
8. Exhibit 9 is a list of my company's current clients. All of these listed clients were previous customers of ground-based re-filling stations who switched to the mobile transfilling method.
9. In 2005 Hurricane Katrina hit the coast, causing ground-based re-filling stations in my area to become flooded and/or lose power, and thus become inoperable. Among these were Air Gas Inc. and Life Gas, a division of Linde Gas North America LLC.
10. During this time, my company was able to transport our re-filling station to various medical equipment supply companies, who are now our clients.
11. In summary, the applicants' method has finally satisfied a long-felt, but previously un-met need in the industry.

James Radcliff states that the facts set forth in this declaration are true; that all statements made herein of his own knowledge are true and that statements made on information and belief are believed to be true and further that these statements were made with the
